Fri 10	<p>7-Ferries! After doing the 5-Ferries for the last few years, this year we're going to attempt 2 more and do 7 ferries. Unfortunately this means doing it on a Friday but it is possible. The route maps out at about 100 miles and, I think, some 6,000ft of climbing but if the weather's nice, the scenery will be spectacular and it will be a very rewarding day.</p> <p>Draft Itinerary can be downloaded here (note that all participants must ensure their bikes are roadworthy and they have a contingency plan should a ferry be missed as all riders need to be self-sufficient in the event of problems).</p>
